Fuel: 15 gal

Livewell: optional - 18gal

Gross Wt: 540 lbs

Power: up to 70 hp

Beavertail Skiffs returns to its roots with the new 18'2" Beavertail **Mosquito**. Starting with a blank slate, and plenty of input from our guides and owners, we've re-imagined the technical poling skiff for today's generation of anglers. Quite capable in a variety of situations and conditions, The **Mosquito** was truly designed to do one thing with absolute perfection - silently stalk the wariest inshore game fish in the shallowest coastal waters. And we're convinced that this skiff will do that better than any other skiff on the market. Period.

The Beavertail **Mosquito**, swarming a lagoon near you!

Features:

- Forward large storage compartment
- 15 gallon fuel tank
- All hatches have deep gutters, lipped and fitted with durable shock absorbent SeaDek Padding
- Flush-mounted, highest grade stainless steel hardware throughout
